

Estimator
Regina, Saskatchewan

The difference between a good company and a great company is its people. This concept is important to us at Quorex Construction Services Ltd. It is why we value qualities like co-operation, spirit, determination and drive. We nurture these qualities and we encourage our people to do their best.

We are a multi-disciplined team of professionals who have been in the construction and development business for more than 30 years. Our team serves every client - large and small - with the same level of dedication and commitment. Our projects encompass the commercial, institutional, multi-family, warehouse and industrial sectors in a region continuing to experience economic growth and prosperity. Our communication skills and work ethics are the keys to our "teamwork builds quality" approach.

Reporting to the Branch Manager, the Estimator is the primary member of the estimating team responsible for all aspects of the estimating and tendering process.

As an Estimator you would be responsible for:

- Reviewing specifications and drawings to determine scope of work.
- Completing detailed quantity take offs including costing of all aspects of the tender.
- Project planning and scheduling for tenders including site logistics and project plans to suit the tender requirements.
- Developing and maintaining work relationships and communication with sub-trades, suppliers, design teams and clients.
- Supporting our Project Managers with negotiation of contracts and project buy outs once tenders have been awarded.

Candidates must have superior communication skills and a demonstrated track record in previous estimating positions with a Commercial Construction Company. At least 5 years of construction industry experience in an estimating position with experience both in estimating and project delivery. Post-secondary education in construction-related disciplines is preferred (Engineering Degree/Technical Diploma).

Come join a team where integrity, teamwork, quality and client satisfaction are part of our corporate culture. We offer a competitive salary, bonus program, an extensive group insurance plan, and a retirement program.

Please forward your resume to the attention of:
